III. JURISDICTION AND VENUE

4. This Court has subject matter jurisdiction under 28 U.S.C. §§ 1331 and 1338.

5. This Court has personal jurisdiction over FXCM because FXCM maintains a website at www.fxcm.com through which it conducts interactive business and through which it provides FX Trading Station software in multiple versions, and other products and related services. The website maintained by FXCM is accessed by users of the Trading Station software who use it in this district, and FXCM's sale, offer for sale and use of FXCM's Trading Station software has caused damage to Broadband Graphics in this district.

6. Venue is proper in this Court under 28 U.S.C. §§ 1391(b), 1391(c), and/or 1400(b).

IV. BACKGROUND

7. Broadband Graphics is the owner of the entire right, title and interest in U.S. Patent No. 7,313,765 ("the '765 Patent"), entitled "Cell Based EUI Methods & Apparatuses," issued December 25, 2007 (attached as "Exhibit A"). All maintenance fees have been paid.

8. The '765 patent is generally directed to automatically shifting or resizing cells nested within a host display container to adjust available space in a cell based end-user interface, known as an "EUI."

9. Broadband Graphics is the owner of all right, title and interest in U.S. Patent No. 7,539,947 ("the '947 Patent"), entitled "Display Container

1 Cell Modification in a Cell Based EUI,” issued May 26, 2009 (attached as
2 Exhibit B). All maintenance fees have been paid.

3 10. The ‘947 patent is generally directed to automatically shifting or
4 resizing cells nested within a host display container to adjust available space in
5 a cell based EUI.

6 11. FXCM is engaged in the business of providing software products
7 and services to others, including, but not limited to, products and services
8 relating to online foreign exchange currency trading, known in the industry as
9 “forex.”

10 12. FXCM’s FX Trading Station software includes the ability to
11 automatically shift and/or downsize display container cells in a cell-based EUI.

12 13. FXCM transacts business and has provided to customers in this
13 judicial district and throughout the State of Washington software products and
14 services that embody the patented inventions of the ‘765 Patent and the
15 ‘947 Patent. FXCM’s software products infringe and/or enable infringement
16 of one or more claims of the ‘765 Patent and one or more claims of the
17 ‘947 Patent.

18 **V. FXCM INFRINGES THE ‘765 PATENT**

19 14. Upon information and belief, FXCM has been and is directly
20 infringing one or more claims of the ‘765 Patent under 35 U.S.C. § 271(a) by
21 making, using, selling and/or offering for sale its Trading Station software.

22 15. The Trading Station products infringe one or more claims of
23 Broadband Graphics’ ‘765 Patent, and on information and belief, the use of
24 these products by FXCM’s customers and others directly infringes one or more
25 claims of the ‘765 Patent under 35 U.S.C. § 271(a). FXCM offers to sell
26 and/or sells or provides for download of the Trading Station software, which is

1 a material or apparatus for use in practicing a patented process constituting a
 2 material part of the invention of one or more claims of the '765 Patent,
 3 knowing the same to be especially made or especially adapted for use in an
 4 infringement of the '765 Patent, which is not a staple article or commodity of
 5 commerce suitable for substantial noninfringing use. FXCM is thus a
 6 contributory infringer of the '765 Patent under 35 U.S.C. § 271(c).

7 16. FXCM's infringement of the '765 Patent has injured and will
 8 continue to injure Broadband Graphics unless and until the Court enters an
 9 injunction enjoining further infringement of the '765 Patent.

10 **VI. FXCM INFRINGES THE '947 PATENT**

11 17. Upon information and belief, FXCM has been and is directly
 12 infringing one or more claims of the '947 Patent under 35 U.S.C. § 271(a) by
 13 making, using, selling and/or offering for sale its Trading Station software.

14 18. The Trading Station products infringe one or more claims of
 15 Broadband Graphics' '947 Patent, and on information and belief, the use of
 16 these products by CMS's customers and others directly infringes one or more
 17 claims of the '947 Patent under 35 U.S.C. § 271(a). FXCM offers to sell
 18 and/or sells the Trading Station software, which is a material or apparatus for
 19 use in practicing a patented process constituting a material part of the
 20 invention of one or more claims of the '947 Patent, knowing the same to be
 21 especially made or especially adapted for use in an infringement of the
 22 '947 Patent, which is not a staple article or commodity of commerce suitable
 23 for substantial noninfringing use. FXCM is thus a contributory infringer of the
 24 '947 Patent under 35 U.S.C. § 271(c).

19. FXCM's infringement of the '947 Patent has injured and will continue to injure Broadband Graphics unless and until the Court enters an injunction enjoining further infringement of the '947 Patent.

VII. JURY DEMAND

20. Pursuant to Rule 38(b) of the Federal Rules of Civil Procedure, Broadband Graphics requests a trial by jury of all issues so triable.

VIII. PRAYER FOR RELIEF

WHEREFORE, Broadband Graphics asks this Court to enter judgment against FXCM and against its subsidiaries, affiliates, agents, servants, employees and all persons in active concert or participation with FXCM, granting the following relief:

1 from infringing the '765 Patent;

6 G. An accounting to determine information relevant to establishing
7 the extent of FXCM's infringement and amount of Broadband Graphic's
8 damages;

9 H. An award of costs and attorneys' fees, pursuant to 35 U.S.C.
10 § 285 to the extent the Court finds this case to be exceptional;

11 I. An order trebling the damage award under 35 U.S.C. § 284,
